NOTHER KIFINIRY FOR PO LT ARTHUR

e "Gushers Don't Gush" Contingent Is Trying to Secure Affidavits to Bolster Up Their Faks-Price of Oil.

Beaumont Texas, May 11.-By far the st Important from that has been anneed came this afternoon when the ers gave out for the first time tuc ar find in Higgins No. 3.

he Higg no (ill and Fund company, one of largest and most prosperous companies Spinsle Top, started in about two the ugo to drill through the oil sands the hill and see what could be found er down. They have been drilling conously since that time and but little ation was given the rig as it constant y mered through the bowels of the earth. a depth of about 1,400 feet they enstered salt water, which came in and the well. They had previous to that gore through solld rock. They kept dulling and at a depth of seventee. the ill sends on Spindle Top and that means that the Higgina No. 3 is now ty to drill through into a second oil d that will prove as abundant and preas the present sands that range in from 850 to L150 feet on smadle The fact that the drill has been go

to be strong and durable and only a cable can be used to go down to it. These require a considerable space and it will be necessary for little companies ownby small tracts to combine in some way

Just here it may also be interesting to note Patillo Higgins' statement shortly after Captain Lucas drilled in his famous gustier the effect that if the drill were pushed further more and greater quantities of oll would be found. Mr. Higgins located the present Cupply most accurately, and it is ere. "In probable that he will again show his scientific training successfully. The fact borne out in the fact that the gas is on top of the present wells and has to be rassed before the cil can be had in good mantitles.

There are likely to be developments of a during the coming week.

The latest thing with the exaggorating copie about the playing our of Spindle Top Came to light this afternoon when The Peat correspondent learned positively that affidavits are being raken from those who are willing to give them to the effect that a great amjority of Spindle Top wells have ceased to flow and are no longer gushers as in the past. This seems to be rather the case of the drowning man catching at the straw than anything clse. Five such affidavits have been taken and the paging them on the public though it is probable that this announcement of The Post will intestall such intentions. Testerday from men were induced to make such affidavits before a potary public in order that they might be given the color of truth and might be used to further exaggirate the situation. Just when these affidavits will be sprang on the public is not known, but the knockers' are evidently getting ready for what they will coubtiess term a coup if the present information does not take a reef to their sails. ame to light this afternoon when The

The week just past was given more to he increase in the price of oil than to anyung else, and during the latter part of week there was a firmness to the demand for Beaumont crude that was most sulng two years.

Started where certain conditions are exceed and the likilihood of it being around a cents before the end of May is strong. The proofs that are being made by the receive that it is susperior to Pennsylvania and the likilihood of the prior, and the will show in the prior. The feature of the situation was mentioned in the prior and the will show in the prior. The Post about two weeks since and in the prior and the will show in the prior and the

SECOND STRATUM OF OIL

Hes a mile off the hill toward the city, but the whole matter was a rumor and nothing more, and when The Post coffeenondout the knew nothing positive about the well. He was trying to get oil off the hill and if he secured it he felt sure of he gratitude of the owners of the property around him, and the fact that he owned a good lo; of acreage in the lumediate vicinity would be sufficient to reward him. He stated emphatically that he had no gusher.

Spindle Top was lively this morning, but this afternoon a heavy rain came up on kept back the usual large number of a git-seers and there was but little doing. A good many rigs were drilling and they kep at it regardless of the rain. These was mostly the rigs on the Keith-Ward truct and where the likelihood of gas was confronting the drillers.

Charles A. Towne, Senator Sahin and other notables during the past week was the netables during the past week was the cause of considerable speculation and d i ing a presidential election fear all soits and kinds of conclusions would have be callinged to, but this time it was simply if rushness. They are interested heavily in the Beaument off fields and each happened to arrive in Beaument about the time of the month when statements are prepared and the business of the componies the are interested in are ready for inspection. This caused the singular appearance letter these distinguished people about the same time. There was nothing but this peeps with any of them.

M. R. Bes was up from Port Arthur a day or two since and announced the location there of another rednery of hug- iridrilling and at a depth of sevences, drilling and at a depth of sevences, and set a strong gus flow was struck, quickly cleated the well of the sart was and shell it out of the top, leaving noth; but the strong gus pressure against casing. From appearances it is thought that the gas pressure is of sical with force as will exceed anothing found at the grashes and the gas pressure is of sical with force as will exceed anothing found at the first thought at force as will exceed anothing found at the proposed addition to the life of the first through the first plant of the first plant of the part of the first plant of the proposed addition of the part of the first plant of the proposed addition of the part of the positions. When questioned by The Pett correspondent as its life plants or the open and the proposed at the proposed addition of the part of the positions. The positions are the proposed and the proposed addition of the part of the company, he said that he had not be dealed at the proposed addition of the part of the proposed at the proposed addition of the part of the proposed at the proposed addition of the part of the first plants of the proposed at the proposed addition of the part of the proposed and the proposed addition of the part of the proposed addition of the proposed and the proposed addition of the part of the proposed and the proposed addition of the part of the proposed and the proposed addition of the part of the proposed addition of the part of the proposed addition of the part of the proposed and the proposed addition of the part of th

From present indications there will be a food many people at Sour Lake Tuesday to witness the exhibition of the new gushor through selld rock practically all this is is taken as an indication that the only like there and there will be coming more reque, and there is the near future. The J. M. Guffer of Post correspondent that he regarded as the correspondent that he regarded as the correspondent that he regarded as the made in Southeast Texas since the first opened the pullding of a pipe line. The fuffer company has already colored the material to proched by the drill that has true Lake Springs company while the people

he Standard Ool company in fact he was pany's No. 1 was turned into a tank from sent when the Standard Oil company which there was a considerable space in was organized and the pipe lines company the product of this well is getting tree in this new discovery is the hopes of the drills for certing this cil will have the drills for certing the condition to the constant use the company is putting the well to.

#### IT PUTS THE SYSTEM IN ORDER.

Begin the work right - Gleanse the blood of impurities and get your kidneys, liver and bowels in fighting trim. Through the use of Prickly Ash Bitters, the world's greatest System Tonic and Blood Purifier you can lay in a stock of vim and energy that to the busy worker is more valuable than gold. Prickly Ash Bilters is a successful remedy for Kidney Diseases and disorders due to Bad Digestion. Reserves Bloating after eating, Wind on the Stomach, indigestion, Heartburn, Nervous Weakness, Faint Feeling, Dizziness.

Half a wineglassful of Prickly Ash Bitters night and morning for a few days, will drive out that drowsy, half-sick feeling, sweeten the breath, remove sallowness and restore the clear complexion and ruddy hus of perfect brath. Persons who use it during the Spring

# Purify Your Blood!

To have health during the SUMMER when hard work makes extra demands on the bodily strength the blood must be pure the digestion good and the vital organs free from bilious impurities. NOW is the time to purify your blood cleanse and regulate the system and put yourself in shape for the season's work.

# PRICKLY ASH BITTERS

THE BLOOD PURIFIER THAT PURIFIES THE BLOOD

AND CLEANSES AND STRENGTHENS THE STOMACH, LIVER AND BOWELS.

During the Winter months many persons acquire a constipated habit as a result of strong diet, insufficient exercise and disorder in the stomach and digestive organs. This condition causes the system to become clogged with impurities which get into the blood and these impurities accumulate so fast that in a short time the blood can no longer furnish the proper nourishment to maintain health and strength. Under the poinonous influence of blood impurities the body grows gradually weaker and at last becomes an easy mark for the diseases that are prevalent during the Summer and Fail. In Southern latitudes this usually takes the form of chills, yellow fever or some kindred miasmatic disease; in the North, typhoid fever, pneumonia, consumption or kidney troubles. The admirable cleansing and strengthening effect of Prickly Ash Bitters is especially appropriate in cases of this kind. It strengthens the kidneys thereby assisting the extraction of the impurities in the blood. It stimulates the torpid liver so that billious accumulations are thrown out of the system through the bowels. It fones the stomach and helps the assimilation of food, by which process the blood is enriched in life and strength giving elements.
